I was so nervous to bring my dog to the Vet with this pandemic but I have to say All Friends made the experience very easy. There was barely any contact between my husband & the tech (each had on mask & gloves) aside from handing the tech our leashed dog at the back door. They took my dog inside to be seen & cared for & when finished they called, we paid over phone and retrieved the dog same way at the back door, easy-peasy. Thank you All Friends Veterinary Hospital :)

★☆☆☆☆ by Rachel Lopez on 2020-04-09

I was highly disappointed. I arrive at my scheduled appointment at 2:20pm, I had a scheduled appointment for 2:30 since we live so close and can walk we were a little early. I call as directed on the sign -due to covid-19- and state I was there for Nala Lopez and was told someone will be out shortly. About 10 minutes after someone comes out and calls for "Ruby" an animal that is not there. I wait. After people coming

out to take grooming appointments-which last I checked doesn't make much sense considering its currently not considered essential for humans not sure why it is for our pets but OK, at 2;55 Ruby shows up and checks in.... funny thats the same animal that was called for upon my arrival but yet wasnt even there??? At 2:58pm after another dog is taken in for grooming I tell the vet tech/assistant listen im going to leave I've been sitting out here and actually took my dog here for preventative care not for a haircut and yet im waiting with no regard??? She then asks for my dogs name and then takes my dog back. Shortly after my dog was returned and I was told "you were a walk-in which is why you waited" I said I absolutely was not and showed her THE CONFIRMATION EMAIL with had my 2;30 appointment CLEAR AS DAY. I then received an eye roll & a "well you werent in our system." I understand during this pandemic tensions are high and people are over worked, stressed etc but come on now no apology for the error made by your business, after I was able to provide the confirmed appointment which came from your establishment? Just an eye roll and a "well you werent in our system"- completely unacceptable.

Dr. Reda, Doreen, Kim, Caitlyn and Leslie are amazing humans. When our cat was sick, he needed to be hospitalized and subsequently needed surgery. Dr. Reda and his team were so incredibly communicative, compassionate and supportive. We received so many updates on a daily basis while he was hospitalized, it was very clear they truly understood how difficult this was for us and did everything possible to build our trust and let us know they were doing everything they could for our little guy. Dr. Reda went above and beyond for us. He is knowledgeable, kind and always available to repeat confusing medical issues far beyond our comprehension. Dr. Reda was so committed to our cats case even once he came home. Doreen or Kim reached out frequently to see how he was adjusting to being home. Dr. Reda truly cares about his patients and their families. He was so thorough and persistent. He never gave up on our cat and helped us push forward during really difficult moment. We are so grateful for Dr. Reda and every single person at All Friends. Anyone who has a pet who needs any kind of medical care should know they are in the best hands with Dr. Reda.

Another great vet visit with Dr. Reda and staff at All Friends Veterinary Hospital in East Islip. Patient, knowledgeable and caring, my new puppy Stella didn't experience any anxiety during her very first appointment at AFVH. I've been taking my senior dog Lucy to Dr. Reda for years, and am always grateful for the gentle care given to her. The fact that the staff never tries to push pet parents into unnecessary tests, vaccines or other charges, is an enormous plus!! I highly recommend All Friends to anyone who is looking for compassionate comprehensive vet care for their beloved pet.

Dr Reda and his staff are very professional. They are very thorough, kind, compassionate, and caring. They take the time to listen, ask questions, answer questions, evaluate the situation, provide advice, provide treatment options, and provide treatment alternatives. They have been very honest and reliable in the care and wellbeing of our dog. We trust them and they have not let us down. We also love the pet reminders for vaccines and other appointments that our dog needs to keep him healthy and happy. They have taken very good care of our best friend. They have also had a lot of patience with us asking a lot of questions. They never hesitate to say call back or come in if you have more questions.

★☆☆☆☆ by Barbara Schimmenti on 2019-05-11

When I came to bring Zoe in for an appointment, I didn't know I wasn't seeing Dr. Reda. Dr. Grayson didn't introduce himself when coming into the room. I left without even knowing who Zoe got treated by. Everything went well with checking out her right back knee. After that however, he gave her a shot of Adequan which he then said Zoe should be getting these shots weekly because of her knee. (Dr. Reda never told me I should be getting shots for Zoe and Dr. Reda has a more conservative approach when treating Zoe) Dr. Grayson also stated how the Movet that she's currently taking only helps a minimal amount. This was prescribed by Dr. Reda as well. After he told me Zoe should lose weight, which I agree, he stated that the kind of dog Zoe is, she is always going to look weird. He stated that the way her body is and her structure and the way her muscles look on her when she's in shape makes her look weird. I was very upset the fact that he said my dog looked weird. Dr. Grayson did not come off as a friendly individual. There are certain ways to speak to people and get information across to the patient. I was upset that he was going against what Dr. Reda prescribed for Zoe and told me she should be getting Adequan shots weekly. It didn't seem like Dr. Grayson was very interested in the well being of Zoe. I have a very good rapport with Dr. Reda and the staff there. I will never have Zoe see Dr. Grayson in the future.

The staff and Doctor are wonderful. Last year my husband found a mixed breed-small dog in Jamaica Queens. On that day Dr. Reda made time in his busy schedule to attend to her. She was never cared for by her owners. We believe she was from a puppy mill. Dr. Reda explained to us her many issues and what was needed to give her the care she deserves. The groomer added her to her busy day to shave her down. This was a huge task as she was never groomed before. Gracie is now a happy and healthy dog. We have other medical issues to be addressed with Gracie which will be taken care of this month. A huge thank you to Dr. Reda and his loving staff!

All friends vet is the best vet I have used. Dr Reda and his staff are awesome, caring, and very professional. Dr reda and Chantelle came to my house on 3 different occasions when it was time to say farewell to my loving dogs. The doc was awesome and made my decisions easier. It is never easy to say good by to a beloved pet... but he made it bearable. LOVE. LOVE LOVE DR REDA AND STAFF

★★★★★ by Kenneth Macko on 2018-06-02

Dr Reda and all of his employees did a wonderful job removing a very large fatty tumor from my small 13 year old Brussels Griffon dog. They also cleaned his teeth. My dog was having trouble walking due to the large size and location of the large tumor. Dr Reda and his staff gave me the surgery estimate and clearly explained all pre op and post op procedures. They also clearly explained all the risks with the surgery and what I needed to do in the event I encountered a risk. My dog came out of the surgery very very well. He ate and had water at the recommended time frame and he was very alert. It is now two weeks after the stitches are out and he is happy, smiling with his clean teeth, and able to walk normally again without the obstruction of the tumor. I greatly appreciate, trust, commend, and respect Dr Reda and all of his staff.

I love the doctor there, the girls are great too. However, it cost me 200\$ for my pup to be seen and get meds for an ear infection!! \$207 to be exact. How did a 50 dollar vet visit turn into a \$200 bill? I felt like they upcherged everything else besides the visit fee. I have very little extra money to spend and of course I want to care for the needs of my dog- but c'mon....\$207 for an ear infection? I feel I have been robbed!

My 8 year old rescue dog, Lucy, is sweet but skittish with people she doesn't know. She was treated with warmth and respect by Chantal and covering vet, Dr. Grayson. Chantal was especially attentive and loving toward Lucy when she received her shots and when there was a little bit of difficulty getting a blood sample. I highly recommend everyone at All Friends Veterinary Hospital.

As usual, Dr. Reda and staff took excellent care of my not so easy to manage rescue, Dexter. He's not very sociable (Dexter not Dr. Reda, he's very sociable!) , but they can handle him. We discussed his health and made some changes to meds and food. Dr. Reda explains everything in a way that is easy to understand and makes sure you're in agreement. Dexter is going back next week for a much needed dental. I trust Dr. Reda and recommend him to everyone. The whole office is so wonderful and caring.

Expert Care from the moment I walked in the door and beyond. My dog and myself were greeted by everyone in the office, all of my pets information was ready and verified with me within minutes and there was no wait time. I was able to order any needed preventative meds and they called me when arrived at the office for my pick up. Especially caring that I received a follow up phone call the next day asking how my dog was feeling after routine checkup and vaccines. The Doctor and staff treated us like family. I will never go anywhere else for my pets needs. Thank you All Friends!

When my furbaby Cody was sick they did everything they could to help him knowing how much he meant to me. They were kind and understanding that Cody was not just a dog to me that he was my baby. Seeing how heart broken I was over his passing they advise me to get another dog asap. They said it would help fill that space of his loss and at first I thought they were crazy because I felt this guilt that I was betraying Cody's memory. But I did as they said I rescued a new Furbaby and they were right. I love my new Fur baby Duke. Duke could never replace Cody but he could help me love another again. I read somewhere that dogs come into our lives to teach us about love. They depart to teach us about loss. A new dog never replaces an old dog, it merely expands the heart to love another. I now understand why they said to get a new dog asap, they were so right. I love my Vet is all I can say.

Dr Reda and staff were wonderful with Anna. It was her first vet appointment as we had just adopted her from a rescue in New Jersey. Dr REda was gentle and she was not scared at all. It was a pleasure to go to a vet that thinks of the animal and not how he can jack up his bill with unnecessary procedures. Recommend Dr. Reda to all who love their animals and want them in the best hands!!

Tl;dr: They are great, fairly affordable, and your pet(s) will be in excellent hands. The staff and doctors are fantastic, friendly, truly caring people. The treatment my dog

received was quick but thorough while also keeping him at ease since he had to get a few shots. I wish the prices for everything were a little lower, but they were able to see my dog the same day. He was given drops for a tail issue which relieved his itching and stress and basically fixed the problem overnight. They even called the next day for a follow up to see how he was doing. I would highly recommend them.

We have used Dr.Redra since he started All Friends Veterinary Hospital. We can't say enough about Dr.Redra. He has gotten us through some tough situations these pastcouple of years. The care he has shown our animals is amazing. His knowledge of the animals problem is truly awesome. He knows what to do and starts his diagnosis giving us the opportunity to have options. This of course is unless your new puppy gets a hold of a bottle of aspirin, opens it, and breaks the aspirin up. Then you are told to bring the animal right down. There isn't enough praise and thanks we have for Dr Redra andhis staff.

I have been searching for a new vet for over 3 years now and I think I have finally found him. I was very happy with the service I received at my recent visit with Dr. Reda. Not only did he squeeze me in on short notice, but he really took the time to explain what was going on with my dog and to provide different options and avenues of treatment. He really wanted to make sure I was comfortable with the treatment being administered. I love that my baby's treatment was not centered around cost and what he could do to drive that up. He seemed to generally care about my animal and

not about what he could charge me for and this I really appreciate. Thank you Dr. Reda for caring and your bed side manner. You are a delight and a breathe of fresh air.

I have been coming to All Friends Veterinary Hospital for years after hwy were recommend by a close friend. Veterinary care for my previous dog and grooming for my current dog (I'm going to start bringing him to see the vets there next time he needs to). I have ALWAYS been so pleased with everyone there, staff, assistants, vets, and groomers... until recently. I'm not happy with the new groomer but I'm going

to give them the benefit of the doubt since they is are brand new and my dog isn't exactly the easiest to work with. My dogs cut is uneven and there's some other issues too so I have to bring him to a family friend to get fixed up. Again, I really like All Friends as a whole and am not going to let an unsatisfactory grooming appointment tarnish my rating too much. Oh and don't worry, a customer has not been lost. I'll still be back for the vets, just may be a while for grooming.

Our furry babies are too important to trust their health to just anyone. The moment I arrived at the office the staff came out to our car to help the puppies inside. Within minutes they were weighed & escorted into an examining room for a thorough check up. We talked about their care going forward & the inoculations they will need. We are delighted with the care & concern we all receive at the All Friends Veterinary Hospital. Many thanks.

★★★★★ by Ellen Toomey on 2016-03-23

Dr.. Reda has been treating Raphy for awhile for a renal problem. Our visit with him was as usual pleasant, professional and caring. He will explain what is going on with Raphy and tell us and show us if he has to how to approach the illness so it may get better. He is an amazing vet and an extra ordinary man in how he cares about the animals and making sure the owners feel assured with the care to give the animal on their own. I wish more doctors for humans were as good and caring as this man. The total practice treats animals kindly and caringly.

★★★★★ by Christa Oates on 2016-03-11

I've had some bad experiences with vet offices pushing expensive tests and procedures that were completely unnecessary and stressful. After going to Dr. Redda, I would never go to anyone else. I know he only gives sincere recommendations and is honestly concerned about the well-being of my pets. I brought my rabbits to him and he suggested I buy supplements for them online. He didn't have the information at the moment, but promised to follow up. Sure enough, I received a call from his office two days later. He was still thinking of my rabbits two days later! The genuineness of Dr. Redda and his staff is immeasurable. My cat is at the office now because he needs to have teeth pulled. If he was anywhere else I would be stressed and worried, but I know he's in good hands. I can't recommend All Friends Veterinary Hospital highly enough.

As far as caring for my dog while he appeared to have something lodged in his intestinal track, I feel Dr. Reder and his wife Doreen went above and beyond with the love and attention they provided to him. Of course Dr. Reder's medical attention to our Dog was exceptional as well. Knowing that when our dog had to stay overnight two nights in a row and was not left unattended as Dr. Reder and his family stayed with him was the best feeling ever. Our pet is 100% and would not take him anywhere else when medical attention is needed in the future. Dr. Reder is very experienced and knowledgeable in all aspects of the veterinary field. When the thought that

surgery might have been a possibility we felt confident that he was in the hands of Dr. Reder.

When you step into All Friends Veterinary Hospital, it feels like you are coming home. Doctor Reda, his wife, his staff, and sometimes even his children are on hand to welcome you. They are not only concerned with your animals comfort and well being, but yours as well. Besides giving your animal medical treatment and medicines, Dr. Reda will also give you remedies that you can find in your own kitchen, i.e. pumpkin, cider vinegar, and sugar. It is a wonderful feeling to know that you can rely on your veterinarian to help you through any situation that might arise in your furry friend's life.

Dr. Reda was so wonderful with my Gus! He has a severe heart problem and he is only a year and a half. He is up front and very honest with you. Dr. Reda is not about taking patients money for no reason. He truly cares for every animal that comes in his office. His bedside manner is so wonderful and he takes the time to explain everything to you. My Gus went to him on Monday for acute pancreatitis he was so weak and with his heart problem It was very scary but Dr. Reda knew he would be ok. He even stayed overnight with him to make sure Gus was ok. They even watched (Jimmy Fallon) together! Dr. Reda himself would call me just to give me updates on his recovery. I only trust Dr. Reda with my Gus!

Dr. REDA is the best!! After visiting the emergency hospital in West Islip, we still didnt know what was wrong with my 3 year old Maltese. The next day we brought her to All Friends and Dr. Reda said it was her back . He gave her medications and said she would be better the next morning. He even called that night to check on her. So about

18 hours later, Madison was her old self, playing ,eating, and wagging her tail. THANK YOU Dr.Redal.....you are truly God's gift to animals. YOU ARE ONE REMARKABLE VET!!!!!!

Dr. Reda has gone above and beyond for my dog, Buddy. I have never met a vet who is more compassionate than Dr. Reda. He truly cares for the well being of each and every pet brought into his hospital. I have had a lot of experiences with various vets and am so happy to have found All Friends. I have been taking my baby here for over 5 years now and it makes me feel good knowing that Buddy is in such good hands. Dr. Reda spent the night with him the first night he was hospitalized just to keep an eye on him. I never met a vet before that would go to such lengths for the well being of someone else's pat. The entire staff is wonderful. Caring and professional are the first 2 words that come to mind. I wish more people cared as much for our pets as Dr. Reda.

Last April our famil had to make the toughest decision we ever had to make. Our dear Kali was 16 years old and her health was quickly declining. She was the best dog any family could ask for. We took her to All Friends and were treated as if we had known them forever. They were so kind and compassionate. Although it was the hardest thing we ever had to do they made it such a lovely experience for us. We highly recommend them, The staff and doctor are such wonderful people.

Very pleasant and caring staff .

NPS: N/A

Yes, I brought you a very sick emergency clinic worthy case. You examined my cat, and handed me a list composing of a long battery of tests, flush treatment, IV fluids, sonogram, meds, etc. etc. to the tune of \$1900. You NEVER offered to help me out financially. I trusted you when you gave me hope for my cat, and decided to use my rent monies to save my beloved pet. So, I entrusted you for the best course of medical treatment for my cat. You went as far as showing me a vial of urine, stating that it was clearer, not so bloody, a good sign... which to me meant that my cat was improving. I had stated that my cat felt cold and his paws were cold to which you responded was due to the metal grating and then I stated he didn't look good even after your flush treatment. That perhaps, we should end his suffering and peacefully euthanize him. But you disagreed, insisting we wait on test results. But then, you yourself stated that he wasn't thriving and not eating even after treatment, but you had seen other patients bounce back so I should wait. Against my better judgment I listened to you. Only to watch my beloved pet die slowly right in front me over the next 36 hours! You gave false hope, misleading words of encouragement.... I have a voice message to prove what you said even after you saw the critical test results. You stated that you were convinced that you could still recover my cat with the right treatment and fluids. On many instances, you gave erroneous conflicting opinions, misleading encouragement, and obviously unsuccessful yet exorbitant expensive treatment which caused my beloved pet and me unnecessary & prolonged suffering. You ordered more tests knowing my pet had a poor prognosis, and critical test results. Who does that? Then your staff has the nerve to state that I took my pet out of your premises against your orders? That is simply untrue, why would I jeopardize my beloved pets' well-being and yet pay you your exorbitant fees? Obviously, I was willing to do anything and pay to try to save and heal my 6-year-old old male cat, I would never do anything detrimental to my cat. You readily agreed that it was okay that I take my cat home being it was a holiday, and since all I wanted to do was ease his pain & trauma, while we waited for test results per your medical advice. I left you a message in the early morning hours, yet you and your staff who stand by your mission statement of being conscientious, & caring returned my call at 6pm that night? Knowing that my case was a critical one? If that's an example of how you & your staff care, I believe you have a different definition of the word. In closing, you should have used your expert medical judgment from the initial exam and blood/urine test results that my beloved pet was critical and you could NOT save him and choose to humanely euthanize him to end his suffering & distress, that would have been the compassionate thing to do not prolong his pain for almost 2 more long excruciating & agonizing days. But it's business right? If you're going to respond, do so with integrity and honesty! I e-mailed you several times with my grievances and had no response whatsoever until my review. Very interesting! Please don't compound my suffering with untruths. Since you stated you would help me financially, please issue a credit to back up your word. Since I'm suffering the ultimate loss, that's the least you can do. Take time from your other patients? Wasn't my cat your patient as well? So because he died, you are writing him off as unworthy of your time? Talk about callous! Since you claim to know who I am, and stand by your professional decisions regarding my pets' medical care, then stop erasing my honest reviews.

★☆☆☆☆ by Anon on 2015-01-05

Awful, I don't understand how so called professionals like this can sleep at night. The Dr misdiagnosed my pet, after the so called \$1900.00 treatment, he himself said "he's not thriving" & ordered more test on my pet. When I went to visit my pet & saw his poor prognosis, I made a heartbreaking decision to humanely euthanize him to end his suffering, however the Dr. Talked me out of that decision. I made the decision to take him home that night as it was Christmas eve & the Dr. stated he was perfectly OK with it & that I could bring him back on Friday for more fluids. It was never against medical advice (as his so called assistant had the nerve to say) against my better judgement, I listened to him & ended up watching my pet slowly deteriorate & finally expiring at 3am on Christmas night. During this horrible time, I received a phone message from the Dr. stating that he did receive the final sono results & was still convinced that he could recover my pet & to call him on Friday morning. I left a message in the early morning hours & my return phone call wasn't until 6pm that evening, obviously he had no regards or concerns for me or my beloved pet. Bottom line he should've known better from the initial exam , blood test results & unsuccessful treatment that his prognosis was poor & to let him go humanely. His professional opinion ended up with both my pet & I suffering needlessly. Unbelievable, I would never recommend this place to anyone, nor would I bring any of my other pets here I feel their mission statement is a lie.
